

# The Premier Full-Service Restoration Provider in the Nation

## BluSky is Ready to Dispatch at a Moment's Notice

**PROPERTY RESTORATION**

24/7/365 emergency response for loss incidents, including water damage, fire and smoke damage cleanup, environmental cleanup, mold remediation, and demolition.

**RENOVATION SERVICES**

A full suite of commercial and residential renovation professionals, including project directors and managers, field superintendents, engineers, designers, consultants, and more ready to step in for your capital improvement project.

**ENVIRONMENTAL REMEDIATION**

Our Environmental Services division at BluSky focuses on providing cleanup for asbestos, mold, lead, and other biological contamination of commercial and residential properties.

**COMMERCIAL ROOFING**

Our roofing specialists are trained damage assessment appraisers and are experts at damage assessment techniques. We utilize a cost-plus bidding model to give our clients a thorough and competitive roofing design and proposal.

We guarantee an exceptional customer experience through quality workmanship, safe job sites, and operational excellence. Our team adheres to an extremely high service standard, knowing that our actions, teamwork, and genuine caring for our customers are required for a successful project.

## 2004

BluSky was founded in 2004, beginning with a small local office in Denver with 15 employees. We have spent the last two decades growing methodically and aggressively into the premier restoration provider in the nation while building a culture of family.

## Present Day

At any given time, we are working on projects in over 40 states. We have responded to every large national catastrophe/weather event since 2004 with our national operations to restore our clients' properties safely and quickly while able to maintain the needs of our local clients.

## Future

We are the premier national restoration service provider of choice with the ability and capacity to go anywhere in the US and US islands. We are projected to grow to over 100 locations by 2026.

## Servicing The Largest Management Firms in the Country

## How BluSky Stays Ahead

- National Presence with a Local Touch. Our National Operations Team and Integration procedure allow for the best resources for our clients.
- In-house estimating department whose sole responsibility is reviewing estimates to ensure consistency throughout every job with real-world pricing.
- Quality Assurance Program built on actions, teamwork, and genuine caring for the customers' personal needs.
- Our Project Management Team uses our web-based job management system to produce timely updates and communication, along with other project-specific forms and reports. These are sent to all of your requested stakeholders.
